

Develop Unit for Polymer Plates KPM-400

for water and
alcohol developing
polymer plates

- constant pressure to surface
of developing plate
- up to die plate format
of 500 x 150 mm
- no evaporation of alcohol
- no additional safety features
necessary

half tone dots
on polymer plate,
magnified

develop procedure

KPM 400 inside

magnet plate

develop liquid

**constant
results with
developing of
polymer plates**

polymer plates
(alcohol developing)
